Professional Summary

Computer Engineering student with strong hands-on expertise in Full stack development. Focused on creating efficient, scalable systems through algorithmic thinking and backend optimization. Experienced in building and deploying RESTful APIs, improving database performance, and ensuring seamless application flow. Proficient in Agile methodology, version control, and full lifecycle API management with measurable technical outcomes.

Experience

- Fuel (Friends Union Emerging Lives)** Jun 2025-Jul 2025
Backend Developer Intern (Java) onsite
 - Improved hands-on experience in Java programming and backend development.
 - Developed RESTful APIs using Spring Boot for scalable web applications.
 - Built and debugged Java applications with attention to clean code.
 - Improved problem-solving, teamwork, and communication abilities
- Dabotics India Pvt Ltd** Jul 2024-Aug 2024
Frontend Developer Intern online
 - Technology Used ReactJS, HTML, CSS, JavaScript.
 - Spearheaded frontend UI modifications using ReactJS.
 - Frontend work like Modifying web content, Managing images.

Projects

- Library Inventory System** May 2025
HTML, CSS, Java, MySQL, Spring Boot, Bootstrap [GitHub](#) | [Live Demo](#)
 - Architected a full-stack platform integration.
 - It is Spring Boot application performing CRUD Operation.
 - The application uses Hibernate to automatically create/update the database schema.
- Online Product Catalog** Jul 2025
HTML, CSS, Java, Spring Boot, MySQL [GitHub](#)
 - This application allows users to view, search, add, edit, and delete products with clean user interface.
 - Implemented detailed product catalog management modules
 - It is Spring Boot application performing CRUD operation.

Education

- SSBT's College of Engineering & Technology** Aug 2022 – Jun 2026
Bachelor of Technology in Computer Engineering
–CGPA: 7.14/10
Jalgaon, India
- J.E.School & Jr. College, Muktainagar** 2021 – 2022
HSC Maharashtra Board
–Percentage: 83.33%
Jalgaon, India

Technical Skills

- Languages : C, Java
- Frameworks & Libraries : React.js, Spring Boot
- Web Technologies : REST APIs, HTML5, CSS3, Tailwind CSS, Bootstrap
- Database : MongoDB, MySQL
- Tools & Platforms : Git, GitHub, Postman, VS Code,

Certifications

- **Java Programmer, Apna College**
Completed algorithmic coding challenges demonstrating structured problem analysis.
- **Power Bi, PWC [Forage]**
Certified to create analytic dashboard design and database-driven dashboard development.
- **React.js, LinkedIn Certifications**
Demonstrated practical knowledge of React.js and UI.

Leadership & Technical Activities

- **Hackathon Participation**
Created prototypes addressing real-world issues under time constraints
 - Directed a 4-member team to design and present a problem statement idea in college hackathon.
- **SSBT Ignite Club | Technical Member**
Guided peers and organized institutional coding events
 - Mentored 10+ students in DSA and competitive coding concepts, improving logic-building efficiency.
 - Coordinated “Eureka pitching” contest attracting 100+ active participants.
